Most highly cited papers [n ≧ 20]

Web of Knowledge data base

2. "Contributions to NonEquilibrium Thermodynamics. I. Theory of Hydro-dynamical Fluctuations", R. F. Fox and G. E. Uhlenbeck, Physics of Fluids **13**, 1893 (1970).
[272]

3. "Contributions to NonEquilibrium Thermodynamics. II. Fluctuation Theory for the Boltzmann Equation", R. F. Fox and G. E. Uhlenbeck, Physics of Fluids **13**, 2881 (1970).
[137]

5. "Contributions to the Theory of Multiplicative Stochastic Processes", R. F. Fox, Journal of Mathematical Physics **13**, 1196 (1972).
[74]

9. "Qualms Regarding the Range of Validity of the GlansdorffPrigogine Criterion for Stability of NonEquilibrium States", J. Keizer and R. F. Fox, Proceedings of the National Academy of Sciences **71**, 192 (1974).
[39]

13. "A Generalized Theory of Multiplicative Stochastic Processes Using Cumulant Techniques", R. F. Fox, Journal of Mathematical Physics **16**, 289 (1975).
[31]

16. "Critique of the Generalized Cumulant Expansion Method", R. F. Fox, Journal of Mathematical Physics **17**, 1148 (1976).
[67]

18. "Analysis of Nonstationary, Gaussian and NonGaussian, Generalized Langevin Equations Using Methods of Multiplicative Stochastic Processes", R. F. Fox, Journal of Statistical Physics **16**, 259 (1977).
[47]

20. "The Generalized Langevin Equation with Gaussian Fluctuations", R. F. Fox, Journal of Mathematical Physics **18**, 2331 (1977).
[70]

23. “Hydrodynamic Fluctuation Theories”, R. F. Fox, Journal of Mathematical Physics **19**, 1993 (1978).
[25]

25. "Gaussian Stochastic Processes in Physics", R. F. Fox, Physics Reports C. **48**, 179283 (1978).
[340]

27. "Irreversible Processes at Non-equilibrium Steady States", R. F. Fox, Proceedings of the National Academy of Sciences, USA **76**, 2114-2117 (1979).
[**20**]

33. "Coupled Translational and Rotational Diffusion in Liquids", U. Steiger and R.F. Fox, Journal of Mathematical Physics **23**, 296 (1982).
[27]

36. "Testing Theories of Nonequilibrium Processes with Light Scattering Techniques", R.F. Fox, Journal of Physical Chemistry **86**, 2812-2818 (1982).
[**20**]

39. "Correlation Time Expansion for NonMarkovian, Gaussian, Stochastic Processes", R. F. Fox, Physics Letters **94A**, 281 (1983).
[46]

40. "Long Time Tails and Diffusion", R. F. Fox, Physical Review **A27**, 32163233 (1983).
[42]

41. "Laser with a Fluctuating Pump: Intensity Correlations", R. F. Fox, G. E. James, and R. Roy, Physical Review Letters **52**, 17781781 (1984).
[24]

43. "Stochastic Pump Effects in Lasers", R. F. Fox, G. E. James, and R. Roy, Physical Review **A30**, 24822492, (1984).
[32]

45. "Functional Calculus Approach to Stochastic Differential Equations", R. F. Fox, Physical Review **A33**, 467476 (1986).
[194]

47. "Quantum Chaos and a Periodically Perturbed EberlyChirikov Pendulum", R. F. Fox and John Eidson, Physical Review **A34**, 482492 (1986).
[66]

48. "Laser Noise Analysis By First Passage Time Techniques", R. F. Fox, Physical Review **A34**, 3405-3408 (1986).
[23]

49. “A Stochastic Theory of Line Shape and Relaxation”, K. Faid and R.F. Fox, Physical Review **A34**, 4286-4302 (1986).
[31]

50. “Quantum Chaos in a Two Level System in a Semi-Classical Radiation Field”, J. C. Eidson and R. F. Fox, Physical Review **A34**, 3288-3292 (1986)
[26]

51. "Uniform Convergence to an Effective FokkerPlanck Equation for Weakly Colored Noise", R. F. Fox, Physical Review **A34**, 4525-4527 (1986).
[179]

52. "Steady State Analysis of Strongly Colored Multiplicative Noise in a Dye Laser", R. F. Fox and Rajarshi Roy, Physical Review **A35**, 1838-1842 (1987).
[127]

53. "Stochastic Theory of Relaxation and Approach to Thermal Equilibrium for Phonon Reservoirs", Karim Faid and R. F. Fox, Physical Review **A35**, 2684-2689 (1987).
[**21**]

54. "Stochastic Calculus in Physics", by R. F. Fox, Journal of Statistical Physics 46, 1145-1157 (1987).
[**21**]

56. “Systematic Corrections to the Rotating Wave Approximation and Quantum Chaos.”, R. F. Fox and J. C. Eidson, Physical Review **A36**, 4321-4329 (1987)
[30]

57. "Mean First Passage Times and Colored Noise", R. F. Fox, Physical Review **A37**, 911-917 (1988).
[61]

59. "A Fast, Accurate, Algorithm for Numerical Simulation of Exponentially Correlated Colored Noise", R. F. Fox, I. R. Gatland, R. Roy, and G. Vemuri, Physical Review **A38**, 5938-5940 (1988).
[277]

60. “Numerical Simulation of Stochastic Differential Equations.” R. F. Fox, Journal of Statistical Physics **54**, 1353-1366 (1989)
[29]

61. "Stochastic Resonance in a Double Well", R. F. Fox, Physical Review **A39**, 4148-4153 (1989).
[134]

64. "Effect of Molecular Fluctuations on the Description of Chaos by Macrovariable Equations", R. F. Fox and J. E. Keizer, Physical Review Letters **64**, 249-251 (1990).
[32]

66. "Chaos, Molecular Fluctuations, and the Correspondence Limit", R. F. Fox, Physical Review **A41**, 2969-2976 (1990).
[35]

67. "A Master Equation for the Logistic Map.", R. F. Fox, Physical Review **A42**, 1946-1953 (1990)
[22]

68. "Temperature and Field Dependence of Magnetic Relaxation in a Bi2Sr2CaCu2Ox Single Crystal", Donglu Shi, Ming Xu, A. Umezawa, and R. F. Fox, Physical Review **B42**, 2062-2065 (1990).
[69]

69. "A Generalized Critical-State Model of Hard Superconductors", Ming Xu, Donglu Shi, and R. F. Fox, Physical Review **B42**, 10773-10776 (1990).
[96]

72. "Amplification of Intrinsic Fluctuations by Chaotic Dynamics", R. F. Fox and J. Keizer, Physical Review **A43**, 1709-1720 (1991).
[71]

73. "Second Order Algorithm for the Numerical Integration of Colored Noise Problems", R. F. Fox, Physical Review **A43**, 2649-2654 (1991).
[61] Eqation (59) correction.

80. "Analytic and Numerical Study of Stochastic Resonance", R. F. Fox and Y.-N. Lu, Physical Review **E48**, 3390-3398 (1993).
[39]

82. "Emergent Collective Behavior in Large Numbers of Globally Coupled Independently Stochastic Ion Channels", by R. F. Fox and Yannan Lu, Physical Review **E49,** 3421-3431 (1994).
[189]

83. "Chaos and Quantum-Classical Correspondence in the Kicked Pendulum", R. F. Fox and T. C. Elston, Physical Review **E49**, 3683-3696 (1994).
[35]

84. "Chaos and Quantum-Classical Correspondence inthe Kicked Top.", R. F. Fox and T. C. Elston, Physical Review **E50**, 2553-2563 (1994).
[27]

88. "Stochastic Versions of the Hodgkin-Huxley Equations", R. F. Fox, Biophysical Journal **72**, 2068-2074 (1997).
[123]

90. "Rectified Brownian Movement in Molecular and Cell Biology", R. F. Fox, Physical Review **E57**, 2177-2203 (1998).
[36]

92. "Quantifying Stochastic Resonance in Bistable Systems: Response vs. Residence Time Distribution Functions", M. H. Choi, R. F. Fox, and P. Jung, Physical Review **E57**, 6335-6344 (1998).
[84]

95. "Quantum Hysteresis and Resonant Tunneling in Bistable Systems", M. Thorwart, P. Reimann, P. Jung, and R. F. Fox, Chemical Physics **235**, 61-80 (1998).
[49]

98. "Rectified Brownian Motion and Kinesin Motion Along Microtubules", R. F. Fox and M. H. Choi, Physical Review **E63**, 051901 (2001), 12 pages.
[53]

108. "Kinesin's Biased Stepping Mechanism: Amplification of Neck Linker Zippering", William Mather and R.F. Fox, Biophysical Journal, **91** 2416-2426 (2006).
[**24**]
