▶ **SPEAKER: RONALD F. FOX**

Regents' Professor of Physics
The School of Physics, College of Sciences
Georgia Institute of Technology

▶ **TIME: THURSDAY, OCT. 27, 2005, 7:30 P.M.**

▶ **LOCATION:**

LeCraw Auditorium Room100
800 West Peachtree Street NW
Atlanta, GA 30332-0520

▶ **CONTENT:**

Dr. Fox will review Einstein's early life up to his year of wonder, 1905. The significance of Einstein's 1905 contributions to the photoelectric effect, Brownian motion, and the special theory of relativity will be discussed. Einstein's own account of what motivated him will be addressed.

The World Year of Physics 2005 is a United Nations endorsed, international celebration of physics. Events throughout the year will highlight the vitality of physics and its importance in the coming millennium, and will commemorate the pioneering contributions of Albert Einstein in 1905. Through the efforts of a worldwide collaboration of scientific societies, the World Year of Physics brings the excitement of physics to the public and will inspire a new generation of scientists. The School of Physics at Georgia Tech is presenting a special lecture by Regents Professor Ron Fox reviewing Einstein's important work.
